Description

The Atlantic Marine Cruiser 730 is a beautifully designed boat that combines style, comfort, and performance, making it an excellent choice for both day cruising and longer adventures on the water. With an overall length of 7.7 meters and a 2.50-meter beam, it offers generous space for relaxing, entertaining, and overnight stays.

Built with a durable GRP hull and a dry displacement of 1,825 kg, the Cruiser 730 delivers a stable, smooth ride even in more challenging conditions. Its sleek silhouette is enhanced by a sophisticated dark blue hull stripe, giving the vessel a refined and elegant look both in the marina and at sea.

This model is powered by a brand-new Mercury 350HP petrol outboard engine with assisted hydraulic steering, offering superb maneuverability and responsive handling. With zero engine hours, you can enjoy the peace of mind that comes with a fresh, powerful installation designed for both reliability and economy. Capable of speeds up to 45 knots, the Cruiser 730 is equally suited to exhilarating runs and relaxed coastal cruising.

A bow thruster adds precision when manoeuvring in tight spaces, making docking and close-quarters handling simple and stress-free.

Step below deck and you'll find a well-planned cabin with two comfortable berths, perfect for overnight trips or extended cruising. Thoughtful details such as corner storage with space for a fridge ensure practicality, while natural light and clever design create a welcoming, airy feel.

The Atlantic Marine Cruiser 730 is a versatile boat that perfectly blends performance, comfort, and style. With its brand-new high-powered engine, luxury fittings, and spacious interior, it is equally at home as a family cruiser, a watersports companion, or a refined weekender.

Available now – enquire today to arrange a viewing and **Disclaimer** purchase the Atlantic Marine Cruiser 730 for yourself.
